United States Government,

Bill Gates just told you in meta that the reason he forbade my legitimate earning of \$120 million and obstructed \$500 million from Madam Lagarde of ECB that he did not want money going to non-whites and that "I'm positive," when asked if he was sure. I will accuse United States Government of fully supporting Bill Gates in extremely strong racial bias, allowing him to invade my Deep Interior while I continuously asks the government to secure my natural rights and in the end extract several trillion for destructive racial bias in collusion with Bill Gates. I really do not give a damn about your coffers if you are found to have any racial bias at all and I will literally take all of your jobs and pensions so it is up to you.

Thanks,
