United States Government,

Bill Gates just pronounced that he had enslaved all white women when he was a child. Why don't you destroy his Empire and his body like I asked you to? Why do you take this risk. He is harming me every day. United States of America cannot survive this fatal error of yours.

Bill Gates power maneuvers are causing me physical pain. That's more than enough. If United States Government does not destroy this malevolent charlatan hick illiterate Bill Gates right away, I will begin a successful campaign to erase the United States of America from historical existence period. I have had enough already. Destroy this criminal cunt immediately.

Thank you,
