

## ZULF'S FEBRUARY 7 2022 WARNING TO UNITED STATES GOVERNMENT

ZULFIKAR MOINUDDIN AHMED  
ZULFIKAR.AHMED@GMAIL.COM

I could not sleep again and Bill Gates has been exercising heavy power against me. Look, United States Government. I am not impressed with your handling of United States Declaration of Independence Preamble. Your purpose of existence is to secure my natural rights. I have been under assault in meta for more than a year and a half roughly. You clearly are unable to understand your purpose of existence.

Let me go over this because you are too stupid to appreciate pretty elementary aspects of *Multi-Ethnic Classical Liberal Democratic Republic*. You also fail to understand the Founders' *reasoning* for the Preamble. You see, on rational grounds no one who has self-interest and Reason would consider *any nation*, no matter how big and powerful, to have any right of existence *unless they secure the individuals' natural rights*.

This is why we hold these truths to be self-evident that all men are created equal, that they are endowed by their Creator certain inalienable rights, that among them are Life, Liberty and pursuit of Happiness, and governments are instituted among men to secure these rights. Why is this malevolent slimy worthless hick illiterate tacky tasteless criminal vile savage barbaric ugly son of a bitch Bill Gates harming my Life, Liberty and pursuit of Happiness and you are not eliminating the son of a bitch.

On rational grounds, the United States Government is not legitimate if it does not secure natural rights of 330 million Americans including mine. I will move to extinguish and erase the entire nation from existence eventually if you continue to fail to understand the basis of legitimacy of the organisation that is the United States Government.

I am surprised that anyone can become senior in the United States Government without understanding rational basis of the United States Government. I do not believe that the existence of United States of America is more important than my natural rights. That is because I am *rational*; I have been granted by the Creator the faculty of Reason. No one who has this faculty granted by the Creator will think the existence of a nation with an illegitimate government has higher value than their own Life, Liberty and pursuit of Happiness.

You are not serving your Constitutionally mandated purpose. You are literally pushing me to consider whether United States of America ought to remain on the world map as a nation or whether it should not exist.

It is up to you. I will not keep warning you forever. If you believe that it is fine and United States of America ought not to exist and you are fine with taking a risk then go ahead, make my day. United States of America will not exist in the end.

## 1. LET ME SHOW YOU SOMETHING SONNY BOY

See this? This is my proof that you are beholden to secure my *natural rights*. Do you know what those are? They are listed in your foundational charter, the US Declaration of Independence.

You see, you stand or fall based on whether you actually fulfill your purpose that is not left to chance. You will sink and dissolve into nothingness when you fail to secure my natural rights and those of 330 million Americans, and I don't see much effort from you.

You might be dazzled by the charlatan hick huckster who sold third rate software and made some money lying about his intellectual acumen, his SAT score and his IQ, but I see through this son of a bitch *Bill Gates*. He ought to be shamed and humiliated in front of the world public and cast out of Civilisation. But you are colluding with *criminal charlatan* and helping obstruct my American Dream

and livelihood for what seems to you like *pragmatic reasons*. I am owed \$620 million from Finance that he is obstructing. He intervened into a Harvard tenure consider with *US Industrial Power* to damage my Exoskeleton and used Conquest and Enslavement meta against me invading my Deep Interior.

You want to play this game with Zulf? There are consequences. Be sure you are comfortable with the consequences because United States of America is founded on rational principles. You are on thin ice, United States Government, and if you don't understand what keeps the ground beneath the feet and provides any legitimacy to the nation, it is not aggressive war powers and large stash of nuclear and biological weapons. It is US Declaration Of Independence Preamble and US Constitution. United States of America is not guaranteed to exist if you play fast and loose with the grounds that give legitimacy to the country.

Your next move better be good, United States Government.

## 2. UNITED STATES IS MAKING A FATAL ERROR BY MISTREATING ME

I am the great immortal genius who elucidated quantisation of energy and other aspects of nature that had been mysterious to Erwin Schroedinger and Albert Einstein and Paul Dirac and Richard Feynman and every man and woman of Science all the way back to Galileo Galilei and Nicolaus Copernicus. United States Government, by refusing to wipe out this malevolent racial son of a bitch Bill Gates who had used illegitimate powers and black magic and had been an evil charlatan and pathological liar to cut into my eyes and United States Government allowing him to harm me while I had been pursuing my American Dream will be quite fatal for the existence of the United States of America. You will not recover from this insolence. I trusted that you adhere to United States Declaration of Independence, and I had made America my home. I believed in this country and you have betrayed my trust. You have valued a malevolent White Order charlatan hick loser who had made some money selling third rate products over an immortal genius who had diligently followed the laws of the Republic and was pursuing *legitimate efforts* and you did not even make an effort to secure my Natural Rights. Do you think you ought to be considered a legitimate government? This man claims that 'white rights' exist to enslave and destroy lives of non-white Americans. Why has this Bill Gates not been slaughtered already? He does not even deserve to live, let alone be given great adoration in Washington. Why did you value him over me? Do you really think the world will forgive you in a thousand years for this grave lack of judgment? I do not think so.
