

**MARCH 26 2022 UNITED STATES GOVERNMENT LET ME BE  
VERY CLEAR ABOUT MY DEMANDS**

ZULFIKAR MOINUDDIN AHMED

First of all, fix *all damage to my meta by Bill Gates* and ensure that this man is never able to control anyone else's meta at all. This savage, brutal, conscience-less, murderous criminal is totally incompetent as a business leader and company owner. If you do not do this I will be forced to seek the end of United States of America.

Second of all, he was always an extremely sadistic cunt drawn to evil harm from when he was young. Microsoft was not a good effort. Don't lie to the world singing praises of Microsoft. If you do that I will seek to destroy the United States of America.

Do you understand? I believe in natural rights and US Declaration of Independence strongly. If the government does not I will promise to work to end the nation and seek a Natural Rights World Order.

I have been harmed by this Bill Gates. I am forced to make him the litmus test for the entire nation.

Do this right away. I'll wipe out the United States of America otherwise. It is a matter of right by Conscience and I am too old to compromise for any reason. I would feel my entire life were a failure if I compromise, and my eternal soul hurt. I won't do that. I'll destroy the United States of America instead which is the right answer.
