

OPEN LETTER TO UNITED NATIONS SECRETARY-GENERAL

Dear UN Secretary-General,

Bill Gates, the wretched miserable scam artist and con man who is a hick illiterate college dropout and who made some money selling third rate software, has been pursuing a White Racial Dominance World Order all his life while pretending to have 'philanthropic' interests. He made his money by cutting into people's eyes by Black Magic, vile disgusting macabre use of US Industrial and War Powers, and destroying their interiors and pushing them to suicide while taking their money. He had no serious education and has a giant library in his house and pretends to have read *Enlightenment Now* while repeating racial slurs and not even understanding that natural rights are not *granted* but are natural, "endowed by their Creator".

Anyway, US Government is doing a consider with Asia in my deep interior to assess damage done by this Evil Sorcerer, this dimwitted illiterate hick from podunk Pacific Northwest which is remote from Civilisation.

The United States Government is embarrassed now of course. This is an opportunity to push through Zulf's Natural Rights World Order so that my Beloved People the Human Race has more security of their natural rights, and immunity from these sorts of vile destructive charlatans and deceivers who have only malevolent evil intentions behind a facade of civilisation, and are actually significantly more savage and barbaric than a cross between an Ostrogoth Marauder and a Cannibalistic Tribal zealot.

Why don't you just push it through? Around 80% of Human Race is strongly supportive of Natural Rights, and it will give some cushion against White Racial Order movements in Washington.

1. BILL GATES IS LITERALLY THE WORST HUMAN BEING EVER BORN ON PLANET EARTH

I am not joking at all and I am 50 years old with a great deal of education with a magna cum laude from Princeton 1995 and 1996-2000 at Columbia University. I can assure you that mythologies both religious and new mythologies from comic books and Hollywood do not have any villain that can compare to just how rotten and disgusting and vile and psychopathic this Bill Gates is. He is not Felix Krull-squared but two to the power Felix Krull. Thomas Mann deserves another posthumous Nobel Prize for predicting Bill Gates before he was even born in 1955. He is so pathologically psychopathic that he thinks he is the best man in the world. Just try to imagine than for a moment and your head will explode.

Thank you,

Zulfikar Moinuddin Ahmed
