EXPLAINS WHY NATURAL RIGHTS VIOLATIONS
LEGITIMATE NIXING OF NATIONAL GOVERNMENT**

ZULFIKAR MOINUDDIN AHMED

United States Government,
You are an illegitimate criminal enterprise without any doubts. Here are my legitimate papers.

I am currently suffering intolerable pains from heavy meta imposed in my own using US War Power which is highly corrosive and US Industrial Power which is inhumane to use in anyone's personal meta. These are heinous war crimes deliberately used by Bill Gates. You ought to have destroyed him more than a year ago. But you are not a legitimate government of a civilised nation but an extremely corrupt organisation. You are accomplices in his war crimes, and you have failed to comply with the United States Declaration of Independence by refusing to destroy a racial murderer even after having received numerous warnings and reports from an Asian-American immigrant.

My unspeakable sufferings are due to your malevolence, your untrustworthiness, that despite your promise to the American people that you would secure natural rights you are accomplices of some of the most horrid heinous murderers and some of the worst people on Earth like Bill Gates who defied Geneva Convention to harm my Body meta, my Blood Meta, and destructively invaded my Deep Interior while you were encouraging of his evil crimes.

The world cannot tolerate your continued existence as the human race needs nations to be in accordance with United Nations international human rights law, which you do not respect at all. Maybe there is a racial aspect to why you would

Date: April 11, 2022.

nurture horrible evil murderers like Bill Gates and allow him to massacre lives and American Dream of law-abiding Americans. Maybe you are just purely illegitimate and evil organisation.

In either case, I appeal to all people of the world to disallow United States of America from continued existence if I should perish.

1. ALL EMPLOYEES AND OFFICIALS OF UNITED STATES MUST CONFORM TO US DECLARATION PREAMBLE

Look, United States Government people: Either you will read and understand Preamble of the United States Declaration of Independence which is part of our Constitution or you will be fired and look for something to do in the dumpsters with the tramps. Understood? It is not a matter of interpretation. You can't take taxpayer salary if you don't understand the purpose of government and the fundamental principles of our government. We don't need you in government otherwise.

2. UNITED STATES SUCCEEDED BECAUSE OF ENLIGHTENMENT UNIVERSAL CLASSICAL LIBERALISM PRINCIPLES

I am amazed at the idiocy of people who work in United States Executive Branch, are not fully familiar with world history of comparative politics, and after success of the nation in many ways, decide that it did not succeed from Enlightenment Universal Classical Liberal Principles of natural rights security, of civil rights, of transparency in business, and succeeded instead because of the things that corrupt the pristine purity of the Universalist conceptions. There are failures of Classical Liberalism in social spheres, such as failure of marriages and single parent situations, but even the US Industrial success is due to the pristine free political enlightenment post French Revolution.

These morons who distrust the American Sacred Universalist political philosophy do not need to stay in US Executive Branch. If you want to test out a United States of Old Regime, do it elsewhere, not in my country.

3. BILL GATES HAD ASSAULTED AND OCCUPIED MY BODY META MORE THAN A YEAR AGO

My health was already not good since I am diabetic and a smoker. More than a year ago Bill Gates assaulted my Body Meta with US War Power and US Industrial Power and European Black Magic Powers that had been forbidden in the thirteenth century. I have repeatedly asked for intervention of the authorities because these are war crimes. In the intervening period he has been busy causing more harm to me in every possible way with a white supremacist racial agenda and United States Government has done nothing to satisfy my demands that it is your duty to secure my natural rights.

Thank you,
Zulfikar Moinuddin Ahmed
