WILL DEDICATE MY LIFE TO EXTINCTION OF UNITED

United States Government,

Bill Gates is guilty of War Crimes and Treason. I am physically and mentally hurt. I am an intellectual elite and I deserve my success in American Dream. D. E. Shaw & Co. owes me \$120 million. Madam Lagarde of ECB is willing to gift me \$500 million for my proposed projects. I deserve to have my own pad in San Francisco, which I cannot without these funds.

It is a matter of Conscience for me to pursue the extinction of the United States of America unless Bill Gates is totally destroyed.

Here are my papers.

Date: March 7, 2022.

I have thought about these issues quite seriously and I am generally not an Anarchist at all. But I will not be able to tolerate the sort of nation that would allow this, what has occurred to me, happen at all.

Bill Gates is a genocidal megalomaniac who deserved to be destroyed in his youth. He is a career mass murderer. He repeats 'whites are superior' continuously which I consider to be a deranged sort of thing believed by intellectually challenged illiterate people in America.

I will seriously devote the remaining part of my life to erasing United States of America from history if the government does not satisfy me. You leave me little choice on this matter.
