

**APRIL 5 2022 1:07 PM ZULFIKAR MOINUDDIN AHMED IS
EXTREMELY ANGRY**

ZULFIKAR MOINUDDIN AHMED

United States Government,

There won't be any meltdown of any markets at all if Bill Gates is taken down. You ought to have apprehended and punished him more than a year ago when he assaulted my eye and meta and breached my blood meta. Why do you think the world will care for continued existence of United States Government if you cannot even handle natural rights of a Princeton graduate who is law abiding and doing intellectual work that benefits the world and pretend that a malevolent racial man who killed non-whites and collected their skulls and so on is so important. Fix up my \$620 million in earning from Finance and my tenured full professorship at Harvard. My entire body is in pain and my sleep disrupted badly for more than a year. My brother is facing an uncertain future thanks to your incompetence. I could have resolved problems as my mother is in sick and can't even move from bed. Do you think anyone wants to have an organisation like you handling their well-being? You are tasked to handle natural rights security of 330 million Americans? What's your record like, huh? You lie about people being dangers and kill millions in Asia at a drop at a hat, innocent people but suddenly you have problems apprehending a vile racial murderer like Bill Gates because he is your ally? Are you serious?

This is my Permanent Residency card.

I invoked US Declaration of Independence Preamble and said you have to secure my natural rights and this Bill Gates is assaulting my meta. You knew but you looked the other way. And now look what happened. He confessed in meta that he

Date: April 9, 2022.

kills non-white people and collects their skulls. You want to be remembered like this? Fix all these problems immediately.

1. THAT'S GOOD YOU KNOW BILL GATES MODUS OPERANDI

Bill Gates does all sorts of things to prevent people from defending themselves, kill them and collect their skulls. That's the obsession that is operating with Bill Gates dealing with me. He justifies it by all manner of saving the white race from all sorts of trauma and such. Given that America is relatively racially tolerant now, it stands to reason that this 'political ideology' and his 'convictions' are just cover for his criminal obsession of killing non-whites and collecting their skulls. I am glad that FBI profiled him.

Now note that I do not appreciate the disrespect you have shown thus far to Zulf's life and Zulf's problems and family demands, and Zulf's American Dream. I don't really care all that much about how you were fooled by this sort of genocidal skull collector for fifty years. Did you see me get confused? If I were running America, this cunt would not have \$131 billion and a leading figure in US Industry okay? You are not very competent at figuring out who is who. I should have my success. You will not find me collecting all sorts of skulls. When I was a child I stepped on a frog once and killed it, and I cried all night. I don't go around killing anything and collecting their skulls pretending to be a great benefactor of the 'white race' okay? I am a great immortal genius who is a smoker and have diabetes and I do more serious things like study and plan for higher life satisfaction for my beloved people the human race. You also won't find me kneeling in front of any statue of Alexander of Macedon and weeping about how I am not worthy, okay?

2. FIRE ALL HIGH AND LOW COMMERCIAL PEOPLE FROM GOVERNMENT

United States Government's primary and sole purpose is securing natural rights. It collects \$1.1 trillion in taxes from us. I don't understand why Commercial men and women ought to be tolerated in the government at all. They should all be fired immediately. The United States Government is not a commercial enterprise. It's a natural rights enterprise. American people should not tolerate commercial-minded people in government at all.

3. ZULF VOWS TOTAL VENGEANCE ON EVERY US GOVERNMENT OFFICIAL WHO ALLOWED BILL GATES TO HARM ME

The harm Bill Gates did to my life is permanent. I don't believe in forgiveness of any United States Government official who was even remotely negligent or involved in this harm to my person. You frankly deserve to be burned at the stake one and all, so be prepared. The harm to me is permanent and I vow fully to exact vengeance and retribution on United States Government officials involved. I'll fry all 1.1 million white people in American Government if there is any chance at all and will not even have a mild slight remorse if you burn to death on Crosses.

4. THE UNFORTUNATE SITUATION IN THE POKER GAME VIEWPOINT

Bill Gates is a total 100 percent criminal. He is telling the United States Government white people, "This man is not white and has no power." The trouble is that I don't care about power. I care about justice and law and legitimacy, and I don't

consider the United States Government as the arbiter either. And I am getting to the point where it will be *morally justifiable for me* to have no remorse if the entire white population of United States Government burns at the stake because I think they would deserve it.

This is a bad deal for the United States Government officials because I am American, and so they are traitors for helping a criminal rat like Bill Gates hurt me in the first place. In the second place, once this thing becomes public, they will be abandoned by Bill Gates because (a) he's a totally selfish son of a bitch and lied to them in the first place about how much he will do for them, (b) his agenda is not legitimate versus American democratic opinion so he will have to abandon his government lackeys anyway. Thus US government people supporting his evil harm to me in my blood meta is irrational high risk venture. Also I am a gentleman of Conscience, something the government folks can't spell so they underestimate my convictions since they think I am powerless.

5. SOME UNITED STATES GOVT GUYS CONSIDERED

Bill Gates had used white supremacist tools to cut into my meta and destroy and ransack important elements of my life. They knew it was a war crime. This proves that United States Government knew all along that *Bill Gates was a habitual war criminal* but yet they allowed him to continue for more than a year. Therefore United States Government is a deliberate enabler of war crimes in this country quite knowingly. That's just what international lawyers needed to know to prosecute United States Government for war crimes.

Bill Gates has caused enormous malevolent harm to me in the past year with extreme obsession, and I am not interested in all manner of hocus from people who are not aware of power tricks that I am hallucinating and it is schizophrenia and all that. You have your warning United States Government. Antonio Guterres has already mentioned me indirectly and you will be dealing with delegitimation of the United States of America because this pea-brained college dropout was committing war crimes in the country on your watch, and many of your colleagues supported him too as Human Rights Watch London found, and you did not do anything to conform to Preamble of United States Declaration of Independence. You want to play global chess with Zulf? You're welcome. I'm a novice in real chess, but I can win on geopolitical chess against the best that you have. I'm better than George F. Kennan and Zbigniew Brzezinski any day of the week okay? You want to piss me off and not wipe out Bill Gates while he is daily destroying my American Dream and my future while my mom is sick waiting for income plotting a white supremacist world order, and you think that you will still be geopolitical hegemon? Think again United States Government. I will wipe the nation off the map of the Earth without a problem, capisce?

6. BILL GATES DESTROYED MY THREE MILLENIA OLD META FOR HIS SHITTY WAR CRIMES META

United States Government, my beautiful meta was three thousand years old and was more than Bill Gates' entire Empire. I demand that he sell off \$131 billion in assets to pay for it. He doesn't want non-white people to have their own meta? He has to pay for destroying mine. I claim it was worth more than \$131 billion. I insist on it.

Thank you,
Zulfiyar Moynuddin Ahmed
