OPEN LETTER TO UN SECRETARY-GENERAL ANTONIO
GUTERREZ**

Dear Mr. Secretary-General,

You already know from United Nations Human Rights Council Considers that this *Bill Gates* is guilty of War Crimes directly against my person. I suspect that the tepid response of United States Government, who ought to have killed him right after he breached my Blood Meta almost a year ago, with their 'warnings' to him to discontinue which he ignored every day, is their way of allowing me to be killed to reduce their headaches since Bill Gates has money and is prominent.

If I should perish I want you to ensure that United States of America is delegitimised completely and ceases to continue by any and all means possible. Bill Gates directly threatens natural rights of one third of American population and billions around the world.

Do not let America survive at all if I should die. My Conscience is great for my beloved people the human race. Do not let my sacrifices be in vain.

The aftermath of the Mai Lai Massacre during the Vietnam War is not the only example where the nature of American Government is clear. Osama Bin Laden and his various Islamist followers had nothing to do with 9/11 and this government had destroyed several countries and killed more than $N(\mu = 11200, \sigma = 223)$ people extrajudicially with drones in Asia. Ensure these things will never again occur, Mr. Antonio Guterres.

Thank you,
Zulfikar Moinuddin Ahmed
