

ZULF HAS A PROPOSAL FOR UNITED STATES GOVERNMENT

ZULFIKAR MOINUDDIN AHMED

Fine, if you grab this snot-nosed illiterate hick war criminal, and then cut up his body parts, including his dingus, and then treat them preservation in a Natural Science Museums marked as "Zulf's Conquest And Other Claptrap", I might not nix the United States of America.

I don't like messy things. Don't use a chainsaw. Talk to the Natural History Museum staff for how to preserve Conquered Dinguses of Genocidal Megalomaniac Racists first, and follow instructions. Don't use a *chainsaw* to cut his body parts. It will damage his bones and make it harder to test my theory that this cunt Bill Gates is actually related not to the ordinary homo sapien line but the Pro-Magnon Saber-Toothed Savages. You heard right. The Pro-Magnons would be distantly related to their advanced cousins Cro-Magnons, by which time the Saber-Tooth was tamed.
